

FLOWERS OF BATH

Firstly, a huge congratulations to your both on your engagement and upcoming wedding!

Planning and imagining your wedding flowers is a really exciting time but it can also be baffling if you aren't a flower wizard that knows what's available and when. It can be daunting not knowing flower names and types – but, that is what we are here for. Our wedding florists will guide you through the process step by step and can provide as much or as little guidance and ideas as necessary.

We offer a complimentary consultation service which usually lasts around one hour and takes place at our shop in central Bath, of course, over a cuppa! One of our talented florists will take down notes and talk through the details of your wedding day and usually around 24/48 hours, a detailed quote will be emailed over to you along with a mood board of seasonal flower types that match your vision and ideas and also, some that we suggest that will enhance your blooms to achieve your preferred style.
